

LP+365

**AFFORDABLE, SCALABLE, CLOUD-BASED
LEARNING AND COLLABORATION PLATFORM
WITH PROVEN EFFICACY**

LP+365, built in partnership with Microsoft, integrates with Office 365 to create your school's Learning Collaboration Platform (LCP), driving positive education outcomes in school and home.

For schools and colleges, it brings a familiar structure of class and subject sites, each with its own assignments, resources, and familiar collaboration tools, that require minimal training. Exams with certification, and courses modules are also available.

Office 365 A1 is free for all educational institutions. It includes email communication, resource management and online video conferencing. Microsoft's Office Apps, such as Word, Excel and PowerPoint can be used to view, create, and edit documents.

FEATURES

HOME DASHBOARD: The Home Dashboard enables one-click access to classes and subjects, assignments, email, calendars and documents.

CLASS DASHBOARD: The class dashboard allows teachers to manage resources, communication, quizzes and assignments, and projects for their learners.

MS TEAMS: LP+365 is integrated with Microsoft Teams, allowing teachers to manage online teaching and proctoring

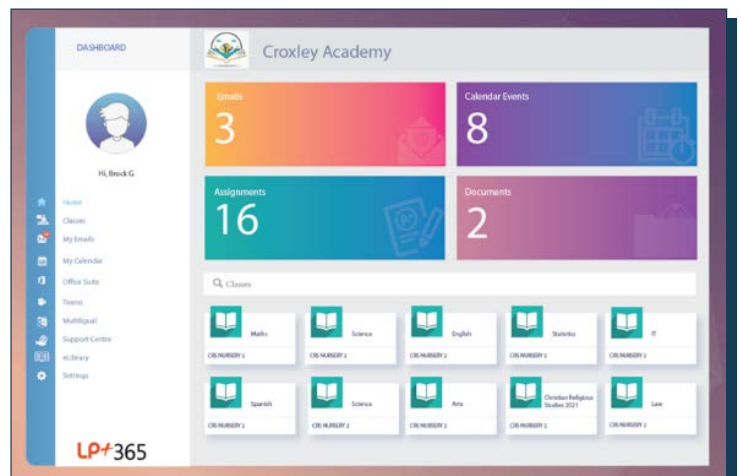

ANALYTICS: Analytics allows the teacher to see all learners' sentiments and platform engagement. These measures quickly signpost areas for interventions.

MULTILINGUAL: Allowing teachers and learners to work with a language of their choice drives adoption. Our platform allow seamless selection between a large number of languages. Additional languages, including those with scripts such as Arabic and Hindi, can be added quickly.

SUPPORT CENTRE: LP+365 includes inbuilt support for all tools, allowing quick reference as well as training courses. The LP+ Support Centre has guides, videos, and interesting educational articles.

ALL DEVICES: Users can run LP+365 app directly from any device including laptops, tablets, and mobiles; on a modern web browser without needing to download and install any software. LP+365 is designed to operate on broadband as well as 3G/4G mobile data. Many of our tools also allow offline access.

ELIBRARY: The LP+ eLibrary is an integrated and curated collection of more than 10,000 reference books that cover all stages of learning and include literary classics from around the world.

LP+ was used by the Welsh Government's 700k teachers and students for Digital Learning
